SUMMARY

I'm an Engineering(EEE) student skilled in front-end development and IoT. Led projects using HTML, CSS, JavaScript, and Arduino. Looking forward to associate with a progressive organization that provides an excellent environment to apply my technical knowledge.

TECHNICAL SKILLS

- **Web:** HTML, CSS, JavaScript, React.js, Node.js, MongoDB
- **Data:** Power BI, Tableau, SQL, Excel
- **Soft:** Problem-solving, Communication, Teamwork
- **Languages:** English, Hindi, Telugu

PROJECTS

- **Adidas Power BI Dashboard:** Created interactive sales dashboards to drive data-driven decisions.

- **Blinkit Delivery Analytics:** Built dashboard optimizing delivery times and analyzing customer trends.

- **Smart Speed Breakers:** Engineered Arduino-based kinetic energy system generating electricity.

- **Automated Street Lighting:** Developed motion-sensing Arduino lighting system reducing power use by 40%.

EDUCATION

- **B.Tech (EEE)** – RGUKT RK Valley | CGPA 7.5 (Top 10%)
- **Class XII (CBSE):** 75% | **Class X (AP Board):** 98%
- **National Programme on Technology Enhanced Learning :** Electrical Circuits (Jan–Apr 2025)

CERTIFICATIONS

- Prompt Engineering – BE10X (2024)
- Power BI Mastery – BE10X (2024)
- Tableau – BE10X (2024)
- Excel Intermediate – BE10X (2024)
